The main aim of **Punt Jove** is informing and helping young people so that they can choose the best options for their present and their future. It wants to create equal opportunities. Each year there are more youngsters that use its services what made the program grow.

Youngsters of the district and youngsters with an immigrant background unite in order to realize informal educational activities and to give an impulse towards integration and a peaceful living together.

The main purpose of the volunteers will be the attention to young people. They will give their support in the actions and planned projects for young people in the field of education of the values of coexistence, tolerance and solidarity. The volunteers will offer their support and help in various activities required, but they may also develop their capacity of initiative in the projects that they may develop. On the other hand, according to the demand of young people in the Youth Point, they could launch a project with the help of the youth worker, in order to promote the integration of young immigrants.
