

YOUTH EXCHANGE

„THE CLIP“
Náchod Czech Republic
8. - 14. AUGUST 2021

Dear participant,

We are truly very happy, that you will come to this Youth Exchange and all of us will have a chance to meet, share experience and learn from each other !

With this project we aim to bring together people with common passion for dancing, singing and acting.

In a creative and easy-going way we will try to make the project THE CLIP which will focus on the following values: C - cooperation, L - learning, I - innovation, P - peace.

By this project we want to address issues of youth radicalization, intolerance and hate speech.

We will have the opportunity to have professional recording equipments (fe. Dron, ...) and our audio will be recorded in a studio. At the end of the project, we will share our creation on Youtube .

Therefore, every participant is Co-creator of this Youth Exchange !

We are looking forward to meeting you !

With warm greetings Děčko Team

▶ ABOUT THE PLACE

SVČ Děčko Náchod (Děčko) is a Center of non-formal education of youngsters and children. Děčko offers over 90 spare time activities for children aged from 5 to 18. Our dance department has 22 dance groups. This year the dance department has 312 members. Almost every month there is a spontaneous activity, where our young people can practice what they have learned during the year (disco, competitions, dance battles). We also cooperate with the local Roma community center and lead street dance classes there.

Dance camps are organized every year. They are focusing on modern dance styles, break dance and street dance (hip-hop, LA, old school, new style, house dancing, MTV dance, wacking, dance hall, Krump, popin, lockin etc.). Our instructors are from BDS Academy dance school (Praha), Alyasca crew (Olomouc), Last minute crew (Praha), Pentifull crew (Praha), Survivals crew (Praha), Break Natsu (Poland) and Energy 49 (Hradec Králové).

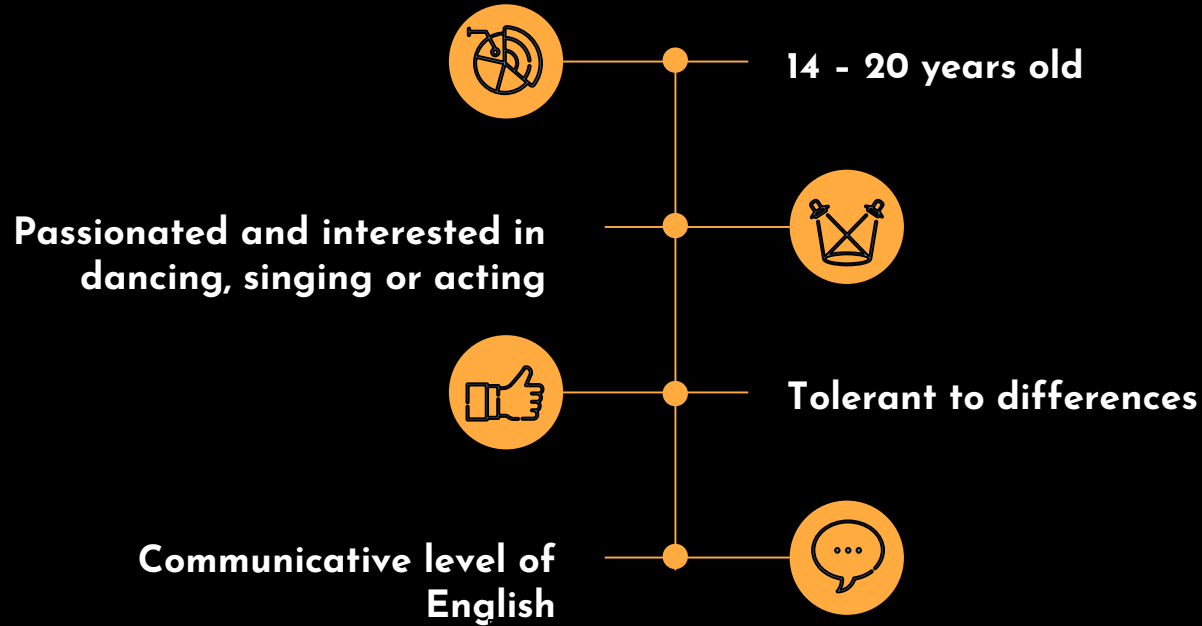

ABOUT THE PROJECT

- The CLIP is a project which will focus on the following values: C - cooperation, L - learning, I - innovation, P - peace.
- By the project we want to address issues of youth radicalization, intolerance and hate speech.
- We understand those terms as ways to express extreme opinions in political, religious and ideal topics, away from other points of view, expressing hate or aggressivity against people representing different values or origins. Nowadays young people spend a lot of time online, especially it is popular to watch videos, follow YouTube or TikTok channels and spend time on social networks. In online space we can often find sings of intolerance and radicalization which are expressed by hate speeches. Among all popular social networks, YouTube is one with the highest rate of reported cases of hate speech (source: reaserch on online hate speech by Alexander von Humboldt, Institute for Internet and Society). This is one of the reasons why we decided to create for the project a video with young people which will spread positive message.

- We would like to create a safe space where youngsters from different cultures can learn to cooperate, develop their skills and discover common passions. This can lead to the realization of similarities between them and the discovery of common values.
